## CRYOSURGERY

Utilizing the Galil Medical cryosurgery system of small 17 gauge needles, we have over 1500 cases of experience in prostate and renal Cryo.

We fully support the procedures with a highly skilled technician and all necessary equipment including ultrasound. 100% turnkey service makes it easy for the physician and the hospital.

See the Galil Medical website for more Cryo info at [www.galilmedical.com](http://www.galilmedical.com)

## TRANS URETHRAL MICROWAVE THERAPY

All microwave therapy is not created equal! We offer the only system with proven, long term results.....

Urologix Cooled ThermoTherapy for the In-Office treatment of BPH.

Our service is 100% turnkey with equipment and a technician to free your staff up for other patient care responsibilities.

For more information on this technology, please see the Urologix website at: [www.urologix.com](http://www.urologix.com)

## THE SPANNER Prostatic Stent

*"Finally, a temporary prostatic stent that works!"*

We are an authorized distributor of The Spanner and can assist your practice with the startup and training for this exciting new product.
